

# Key Investor Information Document

This document provides you with key investor information about this Sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-fund. You are advised to read it, so you can make an informed decision about whether to invest.

## Max Conviction Balanced Fund, a Sub-fund of the SICAV SHELTER UCITS

(ISIN: LU2228414459, Share Class IC EUR Acc)

This Sub-fund is managed by ShelteR Investment Management (Luxembourg), a management company subject to Chapter 15 of the Law of 17 December 2010 on Collective Investment Management Companies, hereafter ShelteR IM.

### Objectives and Investment Policy

#### Investment Objective:

The objective of the Sub-fund is to provide investors with an investment return balanced between the return of broad equity markets and European and global bond markets by investing mainly in collective investment undertakings (UCITS, other UCIs and ETFs).

#### Investment Policy:

This Sub-fund invests mainly in other collective investment undertakings which, in turn, invest mainly in different government and corporate bond markets and/or in the equity markets (including real estate investment trusts) and occasionally in other strategies such as alternative investments.

The Sub-fund may also invest in money market funds and in other transferable securities.

The selection of the underlying collective investment undertakings follows the strategic and tactical asset allocation views of the investment manager. The focus is on (international) diversification over several highly ranked managers.

The Sub-fund's benchmark is composed of 50% MSCI World All Country Index & 50% Bloomberg Barclays Global Aggregate Euro Hedged.

The Benchmark is solely used as a reference to compare the performance of the Sub-fund but not for the construction or choice of constituents in the Sub-fund's portfolio. For this reason, the Sub-fund's portfolio can strongly differ from the Benchmark in terms of return and/or risk.

The Sub-fund may hold cash on an ancillary basis. The Sub-fund may not borrow for investment purposes. However, it may borrow up to 10% of its net assets on a temporary basis for liquidity purposes.

The Sub-fund may also, on an ancillary basis, invest in other traded financial instruments necessary to adequately hedge risks in the portfolio.

Shareholders may redeem shares on any dealing day in Luxembourg. Any income earned by the Sub-fund will be retained and reflected in an increase in the value of the shares (accumulation).

The shares of this Sub-fund are issued in EUR.

Please refer to the Sub-fund's prospectus for more information.

### Risk and Reward Profile

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Sub-fund.

The risk category shown is not guaranteed and may change over time. The lowest category does not mean risk free. The Sub-fund has this rating due to the nature of its investments which include the risks listed below. These factors may impact the value of the Sub-fund's investments or expose the Sub-fund to losses.

- ❖ Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Sub-fund is more sensitive to any localised economic, market, political or regulatory events.
- ❖ The value of equities and equity-related securities can be affected by daily stock market movements.

Other influential factors include:

- ❖ Politics, economic news, company earnings and significant corporate events

Particular risks not adequately captured by the risk indicator include:

- ❖ **Counterparty risk:** the insolvency of any institutions acting as counterparty to derivatives or other instruments, may expose the Sub-fund to financial loss.
- ❖ **Operational risk:** the insolvency of any institutions providing services such as safekeeping of assets may expose the Sub-fund to financial loss.
- ❖ **Currency risk:** the Sub-fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment

Please refer to the Sub-fund's prospectus for more information about the risks.

## Charges

The charges you pay are used to pay the costs of running the Sub-fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest
